

Workshops on EIA Consultants Accreditation Scheme

Version 3

Background

The Scheme is based on internationally accepted principles of accreditation namely a 3 year cycle of accreditation comprising Initial Accreditation (IA), followed by a Surveillance Assessment (SA) and then Re-accreditation after 3 years. However, as there were no parallel to the Scheme across the Globe, it actually evolved itself based on inputs from experts and feedback/ learnings from the field as follows –

- Incorporating Initial Accreditation (IA) process – Version 1, Jan 2010
- Incorporating IA and Surveillance Assessment (SA) processes – Version 2, Aug 2011
- Incorporating IA, SA and Re-accreditation (RA) processes – Version 3, June 2015
