ABOUT QCI/NABET

Quality Council of India (QCI) was set up jointly by the Government of India and the Indian Industry represented by the three premier industry associations i.e. Associated Chambers of Commerce and Industry of India (ASSOCHAM), Confederation of Indian Industry (CII) and Federation of Indian Chambers of Commerce and Industry (FICCI), to establish and operate national accreditation structure and promote quality through National Quality Campaign. QCI is registered as a non-profit society with its own Memorandum of Association. QCI is governed by a Council of 38 members with equal representations of government, industry and consumers. Chairman of QCI is appointed by the Prime Minister on recommendation of the industry to the government. The Department of Industrial Policy & Promotion, Ministry of Commerce & Industry, is the nodal ministry for QCI.

It functions through the executive boards in the areas i.e. Accreditation for Certification bodies, Assessment Bodies, Healthcare Establishments, Education & Vocational Training Providers, Consultant organisations, skill development etc.

In addition it has an exclusive Board for promotion of Quality.

National Accreditation Board for Education and Training (NABET), one of the constituent Boards of QCI, offers accreditation to the Training Courses/Course Providers in various areas including Quality Management Systems, Environment Management Systems, Occupational Health and Safety Auditors etc. NABET also accredits EIA Consultant Organisations, schools, Industrial Training Institutes and Vocational Training Providers.

NABET has mutual recognition arrangements with RABQSA-Australia, ANSI-USA and SQA-Scotland.

2. GENERAL INFORMATION

2.1 Background

A Quality Management System, often called a QMS, is a set of internal rules that are defined by a collection of policies, processes, documented procedures and records. This system defines how a company will achieve the creation and delivery of the product or service they provide to their customers. When implemented in a company, the QMS needs to be specific to the product or service they provide, so it is important to tailor it to company's needs. However, in order to help ensure that organisation do not miss elements of a good system, some general guidelines exist in the form of ISO 9001 (Quality Management System – Requirements), which is intended to help standardize how a QMS is designed.

Quality Management System processes start with the initial management planning stages of a company, which define the goals of the company including what products or services the company will be offering. The system then deals with all processes needed, from planning, designing, development, sales of the product or service through creation and finally delivery of the product or service to the customer.

Additionally, the support processes for this to happen are controlled as part of the system. This will include managing resources like people and equipment, procedures to control documents and records, and documents defining how to control products or services that do not meet requirements.

There are processes as part of the QMS that are designed to monitor the processes of the system and lead to improvement. These processes will include a method of auditing the system processes, means of applying desirable actions for problems and a way for management to review the system to ensure requirements are met and plans are made for improvements.

Many organisations are expert in their area of business and intend to develop and implement QMS in their activities/ operations of their organisation(s), but they may or may not be aware about the QMS requirements, documentation and implementation of QMS effectively. Hence, there is a need of QMS consultant organisation in our country and around the world.

QMS CO should have qualified, credible and competent QMS experts, suitable resources, systematic working processes, consultancy quality assurance system etc. To bring uniformity, fairness, transparency, competency, quality assurance etc. in QMS consultant organization's (QMS COs), it is felt that there is a need for a well-designed Accreditation scheme for qualified and competent QMS consultant organisation(s). This will be highly useful to avoid variations in documentation and implementation QMS in organisation(s). This will improve holistic approach and effectiveness, motivate QMS CO's for continual

improvements in their working. NABET-QCI has developed an accreditation Scheme for QMS CO's.

2.2 An Outline of the Scheme

Proposed Scheme:

In view of the above it is therefore proposed to develop a credible Accreditation Scheme specifying the accreditation requirements for the accreditation of Quality Management System Consultant Organization (QMS-CO) to fulfil the requirements of standard like suitable infrastructure, competent human resource, QMS expert, system oriented working system, continual improvement, ethical working.

This scheme is developed and being operated by NABET-QCI in consultation with quality management system organisations, institutes, QMS experts/ professionals, regulators and other stakeholders to frame Independent, transparent and impartial accreditation scheme.

This comprehensive document describes the scheme's requirements of human resources, consultancy quality assurance systems and procedures to be followed, the assessment process and the accreditation criteria. Various aspects of the scheme will be-

- a. Eligibility (who can be accredited) and coverage of the Scheme
- b. QMS Experts – qualification, experience and requirement
- c. Consultancy quality assurance system
- d. Assessment process
- e. Accreditation process
- f. Closure/suspension/delisting/on hold etc. of applications
- g. Fee Structure
- h. Organizational continual improvement commitment towards developing and implementing QMS management system.

Scheme is dynamic in nature. Modifications and updation will take place from time to time, as it ought to be for continually improving the delivery and effectiveness of the training.

Hard copy of any other document may have to be submitted if asked for by NABET, subsequently. NABET Secretariat will inform the AI of any clarification/additional information that may be required for completeness of the application.

4.2 Assessment Process

Assessment Process comprises three parts:

1. Initial Assessment –

In Initial Accreditation (IA), the potential of the applicant organization shall be assessed during the office assessment and based on that accreditation is granted. On successful completion of the initial assessment, an applicant organization is given accreditation for three years, subject to successful yearly surveillance assessment.

- a. **Application Completeness:** Submitted application shall be reviewed by NABET secretariat for its completeness. Inadequacies in application (if any) shall be informed to applicant institution. CO should submit complete response within 30 days. Only completed applications will be further processed.

Note 1: If inadequacies are found in the response, the same will be communicated with an additional time of 30 days. If CO fails to submit satisfactory response even after additional time then the application is made inactive.

Note 2: The inactive period will be for 60 days. The CO may submit satisfactory response in the given time. If the response is not satisfactory then the application will be treated as closed and the CO has to re-apply with full fees.

- b. **Desktop Assessment:** NABET assessment team shall conduct the document adequacy assessment (for the application and along with relevant documents submitted by CO). Observation(s) and NCs (if any) would be communicated by NABET secretariat. CO need to submit the complete response within 30 days or as asked by NABET.

Note 3: NABET assessor will verify closure of NCs and observations submitted by CO. Note 1 & 2 given will be followed for timelines.

Non Conformity (NC): - Non-fulfilment of the requirement/s of the scheme

Observation (Obs): Any point which may lead to non-conformity if not addressed.

- c. **Office Assessment:** On-site office assessment includes interaction with each expert (in house and visiting) /quality manager, concerned administrative staff etc., verification of infrastructure, implementation of consultancy quality assurance system and clients feedback. Assessment report [findings like observation(s) and NCs (if any)] would be reported by NABET assessors to NABET secretariat and in turn communicated to CO. Corrective measures shall be submitted by CO within 30 days. Decision regarding grant/denial of accreditation would be communicated.

Note 4: Closure of NC's and observations submitted by CO will be verified by NABET assessor.

2. Surveillance Assessment –

If there is no change in approved experts, consultancy quality manual, infrastructure, scope etc. then ACO shall pay surveillance fee and inform NABET for due surveillance, ACO need not to submit new application.

If there is any change in experts, team composition, quality manual, infrastructure, modification of scope etc. then new application with updated details and applicable fee shall be submitted and same process as above will be followed.

SA will be conducted with particular emphasis on performance, quality of consultancy delivery, client's feedback, implementation of CQAS, compliance to conditions of accreditation. SA to be carried out between 12-24 months from the date of accreditation.

3. Re-Accreditation

Process will be similar as initial assessment, with particular emphasis on performance, feedback by clients, continual improvement, CQAS etc. in three years from the date of accreditation. RA application shall be submitted 3 months prior to RA due date. RA process shall be completed before the expiry of accreditation to avoid any discontinuation of accreditation (**Appendix 3**)

4.3 Accreditation Criteria

Accreditation under this criterion will be:

On the basis of desktop assessment (DA), report by assessor(s) and satisfactory closure of NCs and observations, office assessment will be conducted by NABET assessor(s). Based on office assessment report, NCs and observation, if any, shall be communicated to the CO for the compliance. CO shall submit evidence based compliance of NCs and observations at the earliest but not later than a month. If required additional office and witness assessment may be required for verification of closures.

Accreditation shall be granted for a period of three years subject to the satisfactory surveillance assessment annually and the same will be counted from the date of office assessment.
